

Student Illness or Injury at School

We will promptly attempt to notify you or a person you have authorized us to notify if we have knowledge that your child has been seriously injured at school or has become ill at school. We have a school nurse available on campus and a secluded area where your child can stay if she or he is injured or becomes ill.

One of the forms we ask you to complete at the beginning of each school year is a form authorizing designated school employees to consent to medical treatment in case your child is injured at school or a school-related activity and requires emergency treatment. We, of course, will call you in such a situation and will also call for emergency medical assistance, if needed. It is important, however, that you understand that the school district is not responsible for any cost of medical treatment or services provided after an injury at school or a school-related activity. We cannot and will not use public funds to pay individual student medical expenses.

At the beginning of each school year, we offer you the opportunity to purchase lowcost student accident insurance that covers the student while at school. You may also purchase a policy that covers the student 24 hours a day. The school district is not the policyholder for this insurance; if you decide that additional protection would be a benefit and protection to you and your family, the contract is between you and the insurance company. We are authorized to and do purchase accident insurance for students who participate in interscholastic athletic practice and competition.

Although we want your child to attend school every day, we do not want your child at school if she or he has a communicable disease or is running a fever of 100° or more. Under State and local Health Department regulations, if your child has certain medical conditions, she or he must be excluded from school for a period of time. The principal can provide you a complete list of those conditions and periods of exclusion.
